www.NEFI.com/training

New classes are added throughout the year so check back often.

NORA Education Credits

As you may be aware, the National Oilheat Research Alliance (NORA) administers the Silver and Gold Certification program for Oilheat technicians. This program is designed to acknowledge skill levels attained in both the field and continuing education classes by working Oilheat technicians and other participants.

A Bronze level for apprentice technicians has been established. Successful completion of NEFI's Basic 160-Hour Oilheat Technician course satisfies the educational requirement for Bronze apprentice status.

The Oilheat Masters Program, the Air Conditioning, Electrical Procedures courses and others qualify for NORA Continuing Education Credits (NORA CEUs).

These NORA credits accrue to your benefit when applying for certification or recertification under the Silver and Gold program. The number of credits varies with the nature and duration of each course.

For more information, log on to www.noraed.org, or phone 1-866-924-1100.

You can find directions to all of the above locations at www.NEFI.com/locations
