### **Energize Your Business at the 2019 HEAT SHOW**

#### **NEFI Expo and the Southern New England Energy Conference Combine for the Hottest New Energy Show in the Industry!**

(Southborough, Mass, February 2019) – NEFI is proud to announce the **Heating and Energizing America Trade Show** (HEAT Show), September 15-18, 2019 at the Rhode Island Convention Center in Providence, Rhode Island.

The HEAT Show is a joint event, combining the NEFI Energy Expo and the Southern New England Energy Conference (SNEEC). The HEAT Show will feature the best and the brightest of our industry, from demonstrations of the latest equipment and fuel innovations to educational and training sessions, updates on NORA programs, and a look at new legislation and how it will affect our businesses. Of course, there will also be gala receptions, fine dining and plenty of time to catch up with old friends and meet new ones.

“NEFI historically held the Energy Expo and Visions Conference in the spring, and the Southern New England Energy Conference would be in the fall. By consolidating the two shows in 2019 we are making it easier for our members and our vendors to interact with each other.” said Sean Cota, NEFI President and CEO, adding, “Seminars and sponsorships are still in the works. We are looking to lock in the most exciting and educational speakers and programs.”

“We are happy that over the years, SNEEC, a cooperative conference between CEMA, MEMA/MA, and OHIRI, has developed the reputation as a strong education conference for marketers,” said CEMA President Chris Herb. “We hope our contribution to NEFI will be the development of strong management and technical education content for the HEAT Show.”

Information on the HEAT Show, registration, exhibiting and sponsorship opportunities will be available at [www.heatshow.com](http://www.heatshow.com). For more information, contact [events@nefi.com](mailto:events@nefi.com) or call 617-804-2222.
