NEFI Computer & Networking Services

At AKUITY Technologies, we believe that technology should make businesses better. AKUITY started in 1988 with the simple goal of bringing better technology and better support to local organizations that needed it. Centrally located in Auburn, Massachusetts, AKUITY helps businesses throughout New England to achieve success through greater returns on their technology investment. We offer end-to-end service including strategic planning, remote and onsite support, hardware and software procurement, and complete implementation services. Our team lifts the burden of technology by helping clients become more reliable, increasingly secure, and better informed so they can focus on what they do best, and leave the rest to us.

NEFI Dental Insurance

Receiving regular dental care can not only catch minor problems before they become major and expensive to treat — it may even help improve your overall health. Gum disease is increasingly linked to complications for pre-term birth, heart disease, stroke, diabetes, osteoporosis and other health issues.

NEFI has partnered with Cigna to offer three Cigna Dental WellnessPlus™ plans. Plans available as low as \$31.42 (Individual) / \$85.72 (Family) a month! See plan details and rate card online at nefi.com/member-benefits.
